$190,000,000 PROFITS

Vast Sum Earned In Seven Years by Standard Oil Co.

STORY AT FEDERAL HEARING

Wealth of a Croesus Has Been Pouring into the Coffers of the Greasy Trust for Many Years—Statement Pulled from Officials.

New York Sept. 19.—Delving into the financial workings of the Standard Oil company of New Jersey, the holding company of all the subsidiary organizations of the so-called oil trust, Frank B. Kellogg, conducting the federal suit for the dissolution of the company, brought forth Tuesday to public view for the first time the enormous profits made by the Standard Oil company. In a period of eight years, from 1899 to 1906, inclusive, the Standard Oil company, on a statement agreed upon the record of Tuesday's hearings, was shown to have earned the total profits of $190,315,943, or at the rate of more than $61,000,000 a year, and distributed to its shareholders in the same period $308,359,400.

While the company was earning these vast sums in the refining of oil the statements adduced at the hearing Tuesday show that between 1899 and 1906 the assets of the company grew by leaps and bounds from $200,791,000 to $371,664,531. The capital stock is $98,338 Financiers and those seeking [illegible] of the exact profits of the S[illegible] oil company have striven vainly [illegible] plain the figures, Mr. Kellogg succeeded Tuesday in placing upon the records of the court. The Standard Oil company makes no statement of its business, and other than the declaration of a dividend it makes no public announcement by which its business may be gauged.

FINE FOUGHT BY SOUTHERN.

Railway Seeks to Escape Penalty of $30,000 Imposed by State.

Raleigh, N. C., Sept. 19.—The appeal of the Southern railway in the matter of the $30,000 fine imposed on it for selling tickets at a rate in excess of two and a quarter cents was heard in the supreme court Tuesday.

The Southern pleaded that the Federal court, having taken jurisdiction of an injunction in the rate matter the state court did not have jurisdiction; that being forced into the trial in the Ticket Agent Green case, it is being deprived of its property without due process of law; that the prescribing by the courts of the $500 penalty suits by individuals renders null and void any indictment against the road.

The state contended that its courts have jurisdiction and in enforcing criminal law the federal court cannot intervene and that under the rate law it had a right to indict for a violation of it.

ADSELLE'S EXTRADITION.

Both United States and England After Alleged Murderer.

Victoria, B. C., Sept. 19.—Trouble has arisen with regard to the extradition of W. H. Adselle arrested at Chefoo and taken on the United States steamship Galveston, for the murder of Gertrude Dayton, an American woman, in a Hong Kong hotel. He afterwards crowded the remains into a trunk and placed them on the steamer Monteagle.

The British authorities are endeavoring to secure the extradition of the accused to Hong Kong for trial, but the United States government refuses to give him up, and has notified the United States consul general at Chefoo to proceed against him.

Wealthy Man Passes Away.

New York, Sept. 19.—George C. Taylor, son of Moses Taylor, who was considered one of the wealthiest men of his time, is dead at his home at Great River, L. I., after being in feeble health several years. He was about 72 years old. By his father's will Mr. Taylor received the income from $20,000,000.

TEXTILE CONFERENCE.

Governor of Tennessee Issues Call to Labor Organizations, Etc.

Nashville, Tenn., Sept. 19.—A call for a conference of the textile manufacturers and representatives of organized labor has been issued by Governor Patterson, of Tennessee. The meeting is to be held in Nashville, Tenn., on Oct. 14, '07, there to consider the question of child and female labor in shops and factories, with a view to adopting uniform laws that will be agreeable and just to the respective parties in interest.

The importance of this meeting is self-evident. In the uplift and evolution of civilized nations, the care and protection of women and children are paramount. The ablest statesmen, publicists, philanthropists and thinking people generally are addressing themselves assiduously to an adjustment of these matters, and I urge upon all textile interests, and especially upon all labor organizations, to choose and send delegates of conservatism, probity, ability and discretion, who will meet and give serious thought to the questions mentioned and take such action as may commend itself to their good judgment.

AN UNUSUAL EXPERIENCE.

Woman Was Nurse, Bride and Widow All Within a Few Hours.

New York, Sept. 19.—To have been a nurse and bride, and a widow all within a few hours, is the unusual experience of Mrs. Alfred Adler, of this city.

Mr. Adler was a wealthy Broadway glove manufacturer. He was taken with typhoid fever on his way back from a trip through Yellowstone park with his fiancee, who was Miss Johanna M. D. Hartung, of this city, and a party of friends.

On his being taken to Mount Sinai hospital Miss Hartung, to whom he had been engaged eight years, became his nurse. He succumbed to the disease, but before his death he and Miss Hartung were married. The wedding took place Tuesday at 6:30 a. m. and he expired at 10 o'clock, two hours and a half after the ceremony. For three nights previous to his death Miss Hartung did not leave his bedside.

True Bills Against Railroads.

Jackson, Miss., Sept. 19.—Following up the indictments returned several days ago charging the Illinois Central and the Yazoo and Mississippi Valley railroads with issuing passes to persons not entitled to such under the law, the grand jury of this county has reported true bills against every railroad in the state, both intra and interstate, for their alleged failure to file statements showing the number of passes issued and to whom, as the law directs.

Constitutional Day.

Norfolk, Va., Sept. 19.—Former Judge Alton B. Parker of New York, former Democratic candidate for president of the United States, and Samuel W. McCall, member of congress from Massachusetts, made the principal addresses at the Constitutional day celebration at the Jamestown exposition Tuesday. The ceremonies were in commemoration of the 120th anniversary of the adoption of the constitution.

Letten's Shortage To Be Paid.

New Orleans, La., Sept. 19.—By mortgaging his own and his family's property, State Tax Collector Joan Fitzpatrick has raised funds to repay $116,000 stolen from the state by C. E. Letten, a clerk in Fitzpatrick's office. The shortage was discovered less than a week ago and Letten is now in jail.

MARITIME WARFARE

Stormy Session of the Hague Peace Conference.

AS TO SUBMARINE MINER

This Question Caused Considerable Discussion, Especially as to the Interests Relating Thereto Between Great Britain and Germany.

The Hague, Sept. 19.—One of the stormiest sessions since the opening of the peace conference marked the discussion today by members of the commission on maritime warfare of the project concerning the laying of submarine mines.

The feature was the antagonism between Great Britain and Germany.

Great Britain, having the more powerful navy, wishes to abolish or limit to the utmost, the employment of mines, while the interests of Germany are in direct opposition to such a proposal. Baron Marschall von Bieberstein, one of the German delegates, came to the end of his patience during the discussion and said:

"As the English press always set us up as barbarians, I propose that the use of mines be abolished altogether."

Of course the baron knew that this proposition would not be accepted, but nevertheless it created a deep impression.

General Horace Porter, one of the American delegates, defended the American proposition which prohibits the floating mines and also of moored mines under certain circumstances. Without mentioning Great Britain, General Porter opposed the British principle.

STRANGE CASE IN COURT.

Women So Nearly Alike Own Mothers Could Not Tell Them Apart.

Chicago, Sept. 19.—The "real Mrs. Klimoviez" has been found. The discovery sets at rest all questions as to the identity of Miss Tillie Tolan, the Chicago girl who was claimed a few days ago in Judge Clelland's court by John Klimoviez as his wife, and identified by Mrs. Mary Zematis, of Grand Rapids, Mich., as her daughter.

Klimoviez has been arrested on a charge of disorderly conduct, the warrant being secured by Miss Tolan, who claimed that Klimoviez had been annoying her by his attentions.

Mrs. Klimoviez offered to furnish proof of her identity but her resemblance to her published pictures and her remarkable likeness to Miss Tolan were conclusive evidence. The likeness between the two women, which is so great that two mothers appeared in court and each identified the Tolan girl as her own daughter, is more marked in the women than in their pictures.

BEATEN TO DEATHH.

Man's Body Was Then Thrown Into Culvert—Robbery the Motive.

Walnut Ridge, Ark., Sept. 19—Evidently for the purpose of robbery J. W. Cromwell, of Pointer, Ark., was beaten to death with an iron bar by unknown parties at Hoxie, a small town near here, and his body thrown into a culvert where it was found by a crowd of children at play.

When last seen alive, Tuesday, Cromwell was accompanied by two strangers who have since disappeared. The trio had been drinking.

Sheriff Made Many Arrests.

Fitzgerald, Ga., Sept. 19—Sheriff Fountain Monday brought in ten men and women from the cotton mill settlement whom he had arrested upon a warrant for disturbing a religious meeting at that place. The parties were bound over by the justice to the superior court.

Tweed's Keeper Is Dead.

New York, Sept. 19.—John McLaughlin, who was "Boss" Tweed's keeper when Tweed was a prisoner on Blackwell's island, died Monday at St. Vincent's hospital, following an operation for carbuncle. He was 70 years of age.

SOLD CHILD TO BUY WHISKY.

Story of Remarkable Heartlessness Is Revealed.

Seattle, Wash., Sept. 18.—Somewhere on the Pacific is a little American boy, born of white parents, who has been sold to a Canaanan who will bring him up as his own son in the land of the Dragon.

This case is said to be without parallel in the history of the United States' immigration affairs. It is the first case of this character ever recorded and is absolutely without precedent.

When Sing Lee, a Chinaman, went aboard the steamship Chippewa with his adopted son, Samuel Edwards Sing Lee, an American boy with only the rights and privileges of an alien there ended, so far as this port is concerned, a story of such deliberate heartlessness on the part of the dissolute parents that hardened immigration officials were visibly affected.

At Fort Wrangell, Alaska, Sam Edwards married Jennie Edwards, in 1898. Oct. 18, 1899, a boy was born to the couple. When little Sammy was three years old he was sold to the Indians for a small sum with which the father purchased whisky to continue his riotous life.

For five years the little fellow lived with the Indians and was then sold to the Chinaman. Mother, father, child and Chinaman appeared before L. A. Sloane, United States commissioner, and ex-officio probate judge, at Wrangell, where the papers of adoption were made out and signed.

PENN. CAPITOL SCANDAL.

Many Arrests Made In Connection Therewith.

Harrisburg, Pa., Sept. 19.—It was stated Tuesday morning that warrants would be issued for the arrest of J. T. Sanderson, George F. Payne, C. F. Wetter and H. Burd Cassel, contractors, Joseph M. Huston, architect; former Auditor General Snyder and State Treasurer Matthews on charges of conspiracy to defraud the state in the construction and equipment of the state capitol.

Each of the defendants will be required to furnish a bond of $60,000 for court appearance.

Warrants were also issued for the arrest of seven others connected with the capitol scandal. This includes all the persons mentioned in the investigation commission report except ex-State Treasurer Harris, ex-Auditor General Hardenborough and two others.

The arrests are based on the report made to Governor Stuart by the commission created by the recent legislature to investigate the capitol scandal. They will be followed by civil suits, for recovery of a portion of the nine million dollars collected from the state by the contractors for the furnishing and equipping of the capitol.

Peace Protocol Signed.

Washington, D. C., Sept. 19.—A protocol was signed at the state department Tuesday by the diplomatic representatives of the five Central American republics accepting the invitation of the United States and Mexico to meet here at an early date to negotiate an agreement providing for permanent peace between the countries represented. The protocol was signed in the presence of Acting Secretary Adee, of the state department, and Minister Godey, the charge d'affaires of the Mexican embassy.

Foreman Killed by Negro.

Lineville, Ala., Sept. 19—Jim McClary, foreman of a railroad camp, was shot and instantly killed by an unknown negro Tuesday afternoon one mile west of Lineville. The negro had escaped from the camp and was captured by McClary, who was returning with him when he got the drop on the foreman, killed him and then escaped. McClary came to this section from Tennessee.

Oklahoma City, Okla., Sept. 19.—Oklahoma has ratified the enabling act and become a state so far as Oklahoma and Indian Territory are concerned. The new state has gone Democratic and has voted to go dry. It is now up to President Roosevelt to sign the enabling act.

100 LIVES ARE LOST

Japanese Steamer Tafoo Maru Destroyed by Fire.

THE DETAILS ARE LACKING

It Is Known, However, that Many of the Passengers and Crew Are Missing and the Estimated Loss of Life Is Given Above.

Shanghai, China, Sept. 19.—A Japanese steamer, said to be the Tafoo Maru, has been burned three miles off Ching Kiang, on the right bank of the Yang Ste Kiang, forty-five miles from Nanking.

It is reported that 100 persons lost their lives.

The Tafoo Maru is not mentioned in the Maritime Registers available, but there are three Japanese steamers of similar names—Tango Maru, Tako Maru and Takao Maru.

The exact loss of life or extent of the damage done has not been ascertained, but it is known that many of the passengers and crew are missing, and it is estimated that one hundred lives were lost.

The Tafoo Maru, formerly the Taihung Maru, is of 1,758 tons register, was built in Japan, was launched in 1900 and belongs to the Osaka Shosen Kabushiki company of Osaka. She is 299 feet long, has forty feet beam and draws 11½ feet of water.

NEW WORLD TO HIM.

Man Surprised at Changes After 25 Years' Incarceration.

New York, Sept. 19.—After having served a twenty-five years' sentence in Sing Sing prison, Michael Hackett, a former New York policeman, was granted a parole last week by the state board of pardons.

Hackett entered the prison in 1882, and during all these years he had not had a glimpse of the outside world, and al of his impressions had been formed from occasional pictures and papers he had been able to obtain. He had never seen a trolley car nor an automobile, and a skyscraper was a marvel. Even the dresses of the women of today are novelties and objects of curiosity to him.

"This is a new world for me," he said on reaching this city, five hours after his release. "As a policeman 25 years ago I thought I knew every nook and corner of the city, but the people are different, the buildings new, and so big that I am bewildered. If you had suddenly placed me in the heart of the city I would have been lost as completely as if I had never been here before."

Cocktail Charge Denied.

Oyster Bay, Sept. 19.—Because of the widespread publicity given the statement of Bishop Berry, of Detroit, that either President Roosevelt or Secretary Loeb, and not Mr. Fairbanks, was responsible for the cocktails served at the luncheon tendered them by the vice president at Indianapolis, Secretary Loeb has issued the following formal statement in denial: "The statement is too absurd to be given any credence. Neither the president nor his secretary either directly or indirectly ordered anything of any kind at the luncheon in question, or at any other luncheon where they were guests."

Lured Son-in-Law To Death.

Culpepper, Va., Sept. 19.—William Seal was locked up in jail here on Tuesday night after the coroner's jury returned a verdict that he had lured his son-in-law, Joseph Smith, to the door Sunday night and shot him to death. In a nearby cell is Fred Jenkins, another son-in-law of Seal, charged with being accessory to the fact.

DR. STROUSE HAS CLEAN CHARACTER

Fully Exonerated Of All Charges Against Him.

SO DECLARES FEDERAL JUDGE

Governor Beckham of Kentucky and Bishops Candler and Morrison Made Affidavits as to His High Character as a Christian Gentleman.

A telegram from Asheville, N. C., to the Savannah News, under date of September 19th, says:

As a result of the hearing before Judge Pritchard in the United States court yesterday, the character of Dr. [illegible] B. Strouse was fully vindicated, the court announcing as its finding that Dr. Strouse is a man of high character," and by mutual agreement between the Henderson Auditorium Company and Dr. Strouse, the lease on the auditorium was [illegible] cancelled.

This is the final chapter in what at one time promised to be a sensational case involving the personal character of Dr. Strouse, but which was amicably settled by agreement between counsel for both sides.

Dr. Strouse took the stand in his own defense, and gave a satisfactory explanation of some of the incidents testified to by the opposition. Affidavits read from Gov. Beckham of Kentucky, who stated that he knew Dr. Strouse to be a Christian gentleman, were also read from Bishop Candler and Morrison, of the Methodist church, testifying as to Dr. Strouse's high character. Many other affidavits were introduced.

[illegible], of Levy county. The proceedings of very short duration, there being very few cases to be disposed of, save the case of the State vs. [illegible], charged with the murder of [illegible] at Raleigh a few months ago, was transferred to Alachua county on a change of venue.

BOTTLING WORKS SOLD.

Golden Rule Bottling Works Sold to Scarborough & Dell.

One of the most important business changes to occur in Gainesville for some time was the transfer Thursday of the stock and fixtures of the Golden Rule Bottling Works, the industry having been purchased from Forman & Son, who established the plant and have been successfully operating the same for several years, by Chas. M. Dell and Clarence E. Scarborough, both young men well known and well liked in this section.

The Golden Rule plant is one of the best in this section of the country, manufacturing many of the leading brands of soft drinks. The firm has enjoyed a fine trade and a fine reputation, and this will no doubt continue under the new management. WATER WORKS WELL.

Has Reached a Depth of Nearly Three Hundred Feet—Drilling in Rock.

Contractor Allen, who is sinking the deep well for the city at the plant of the Gainesville Waterworks, announces fine progress, and believes he can remedy the perplexing question of the scarcity of water, which has been staring the people of Gainesville in the face for the past few years, the situation growing worse and worse on each turn of the calendar year.

The last summer has been one of the most trying of seasons, as far as water was concerned. Notwithstanding that it has been the purpose of Superintendent Miller to give the public a full and compelte service, the water has not been there, caused more especially by the long and continued drought.

It was in the season just related that the City Council realized the necessity of doing something, and it was finally decided that the only relief was to drive a twelve-inch well, which would supply the deficiency in the demand. Accordingly, the contract was let to Mr. Allen, who went to work and is now making fine progress.

Contractor Allen is now working through a solid bed of rock. His progress is not rapid, but sure, and he anticipates a supply of water which will keep the people of Gainesville from uneasiness in future.

EAT WHAT YOU WANT.

Science Has Now Found the True Way to Cure Indigestion.

A few years ago, when a sufferer from indigestion went to a stomach specialist, the result was a rigid diet list that almost meant starvation.

But the first thing to do in the case of indigestion or stomach weakness is to strengthen the muscular walls of the stomach and intestines, so that they will care for the food that is eaten. In no other way can this be done as well as by taking a Mi-o-na tablet before each meal. This restores strength to the stomach muscles and stimulates the pouring out of gastric juices, so that the food is digested readily and its nourishment retained in the system to build up energy and vitality.

Do not think the sick headache, heartburn, bad taste in the mouth, coated tongue, spots before the eyes, sleeplessness and the many other symptoms that are the direct result of indigestion, will go away of themselves. The stomach must be built up and strengthened by Mi-o-na before you can be well and strong, free from suffering and distress.

The guarantee that J. W. McCollum & Co. give with every 50-cent box of Mi-o-na, to refund the money unless the remedy cures, shows their confidence in the treatment.

MICANOPY NOTES.

Micanopy, Sept. 19.—H. C. Crawford is having an addition put to his house. Also recovering the building all over.

Mrs. J. N. Craig and two daughters, Annie Laura and Dot, of Tarpon Springs, are here on a visit to Mrs. Craig's parents.

Orion Feaster came home last Friday, after a trip for five weeks, taking in Norfolk, Jamestown, Washington and Lynchburg.

Miss Grace Merry is at home from Tampa on a visit to her mother.

Retus Smith, son of Mr. and Mrs. L. M. Smith of Wacahoota, who was taken very sick while on his way to see Dr. Montgomery last Saturday morning and had to stay in town for several days, was able to be carried home Tuesday. We hope he will continue to improve and soon be well again.

Mrs. W. C. Johnson and children are spending a few days at St. Petersburg with the former's sister, Mrs. White.

The Melton Lumber Company are having a lot of new machinery put in that will make their mill one of the most complete in the State. As it is now a fine mill, this will add quite a lot to its value and convenience.

Lost Watch and Money.

A. D. Jernigan of this city, member of the firm of L. A. Jernigan & Son, jewelers, who is sojourning for a few days at Daytona Beach, was the victim of an experience a day or two ago which cost him a handsome gold watch and fob, and a ten-dollar gold piece which served as a charm.

Mr. Jernigan, with other friends, was fishing from Keating's pier. In an attempt to throw his line the hook caught in the silk fob, when the watch, fob, money and all were thrown into the ocean. An attempt was later made to secure the valuables, but at the time of the accident the tide was high, and it is supposed that the strong undertow swept the treasures away.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M Johnson.

CANCELLED STAMP GOT MAN IN TROUBLE

Well Known Negro Citizen Arrested By Postoffice Inspector.

A VERY SERIOUS CHARGE

The Alleged Transaction Only Involved a Two-Cent Stamp, But May Cost Man a Long Term If Charges Against Him Are Proven True.

Because it is alleged that Joseph Murray, a well-known colored citizen of this city, used a cancelled two-cent postage stamp on a letter, Murray is in trouble, and is now behind the bars of the Alachua county jail awaiting the arrival of a deputy United States marshal, who is expected today, and who will transfer him to the Jacksonville jail.

Murray was arrested Thursday by Chief of Police Benj. T. Arnow upon complaint and instructions from Postoffice Inspector A. B. Brittan, the charge being defrauding the mails.

It is set up in the allegations that Murray a short time ago wrote a letter to a Jacksonville firm, and that in posting the same he used a stamp which had already been cancelled. The situation at present looks a little serious for Murray, and he will be permitted to explain in the United States court in Jacksonville.

Mr. Newbar's Funeral.

The funeral of Mr. Newbar of Ohio, who died at the Odd Fellows' Sanitarium of typhoid fever late Wednesday afternoon, was held Thursday afternoon, Rev. T. J. Nixon of the First Methodist church, officiating.

Mr. Newbar's death was an incident of unusual sadness. A young man of the North who had come to this country from Ohio, securing employment as a guard in the camp of P. H. Baker, Campville, contracting the fever and being sent to the hospital here by his employer, how he suffered and how he died without being enabled to get into communication with his relatives, form the data for a sad history. The young man was given the very best attention here, however, as Mr. Baker instructed the physicians to spare no expense in looking after him, which instruction was obeyed.

Notwithstanding repeated efforts to reach his relatives in Ohio, this seemed impossible, and he was buried here.

GAINESVILLE FURNITURE COMPANY

WILLARD'S COMEDIANS GOOD.

Presented "The White Caps" in a Clever and Entertaining Manner.

A large and delighted audience witnessed the performance of "The Whitecaps" by Willard's Comedians at the opera house last night.

The play tells a pathetic and interesting story of the South during the thrilling period of the Reconstruction. Although the piece is somewhat heavier than those usually attempted by popular priced organizations, the company proved themselves thoroughly capable, and handled their parts in a manner that called forth the approval of the audience.

Louis Anker, as the heroic Frank Kenton, won quick favor with the audience. Ed W. Hubbard, as Sampson Clay, the negro sheriff, and C. E. Harris, as Luke Barton, the Northern carpet bagger, made a pair of villains who were thoroughly disliked. Bill E. Morrisey, as Lige, kept the audience in roars of laughter. Hempstead Prince, as Col. Calhoun, was very good. Helen DeVere, as Hazel, handled a difficult role in a capable manner. Mildred Bell was a very sweet Mona Desmond, and Mrs. G. E. Tilden got many laughs as Mandy.

Between the acts several high-class vaudeville acts were presented, headed by the famous Lilliputians, Baron Liable and Princess Littlefinger, in a comedy and musical sketch. The clever little people won a warm place in the hearts of the audience.

Miss Mildred Bell scored a hit in illustrated songs. Bill E. Morrissey did a pleasing monologue, and the moving pictures were of the first class.

The specialties will be changed at each performance. Tonight "Faust" will be presented with a full equipment of scenery and electrical effects carried by the company. At the Saturday matinee "Buster Brown's Holiday" will be given, and at the conclusion of the play the Lilliputians, Baron Liable and Princess Littlefinger, will hold a reception for the ladies and children.

PLEASANT HOME WEDDING.

Miss Martin and Mr. Maddock Happily United in State of Matrimony.

There was a quiet home wedding at 7:30 o'clock Thursday morning, when Miss Mary Jeanette Martin and Mr. E. L. Maddock were happily married, Rev. Francis H. Craighill, rector of Holy Trinity Episcopal church, officiating.

There were present at this wedding, which occurred at the home of the bride's sister, Mrs. Geo. P. Long, Mr. and Mrs. W. W. Hampton and daughter, Miss Minna, Misses Nellie Pepper and Jessie Bodiford, Mrs. F. H. Craighill, H. C. Birley of Lake City, and C. B. Maddock of New York, brother of the groom, who acted as best man and the only attendant upon the couple.

Miss Martin is well known and popular here, having resided in Gainesville for the past few years.

The groom is a well-known young man of Palatka, where he holds a responsible position.

Mr. and Mrs. Maddock left immediately after the ceremony for a bridal trip, after which they will return to Palatka, their future home. Friends wish them a long life of happiness in the connubial state.

An Exciting Runaway.

The people of the usually quiet, but hustling suburb of North Gainesville, were aroused at a late hour Wednesday afternoon by a runaway, the horse attached to the buggy of Col. I. E. Webster having decided to do a "stunt" for the entertainment of those in that neighborhood.

While Col. Webster was in the Keystone Bakery talking to R. T. Schafer the animal made a sudden dash, and within a few hundred feet had so completely demolished the vehicle that it will have to be sent to the shop for repairs.

ST. AUGUSTINE PLEASED.

The People Liked Presentation of "Faust" by Willard's Comedians.

The St. Augustine Record of Wednesday contained the following complimentary notice of the Willard Comedians' presentation of Faust in that city Tuesday night, and which will be played here by the same company this evening:

"A fair sized audience witnessed a clever production of 'Faust' by Willard's Comedians at the Genovar theater last night.

"Edw. W. Hubbard as 'Mephisto' did credible work, bringing out the strong points of his role in a talented manner. Louis Anker as 'Faust' deserves to be commended. Miss Helen DeVere added to the strength of the bill by portraying in an admirable way the life of 'Marguerite.' Mrs. G. E. Tilden as 'Martha' was applauded generously.

"Sparkling specialties were introduced between acts relieving the usual monotony between curtains. The midgets, Baron Liable and Princess Littlefinger, were again accorded hearty applause with frequent encores. The moving pictures is a valuable adjunct to the theatrical profession and some splendid views were exhibited between the second and third act. On the whole Willard's Comedians deserved a more liberal patronage than they received at last night's performance. While many productions of 'Faust' have been presented by different companies yet it is seldom a play of this character is attempted at popular prices. These things should be considered by the theatergoer and credit should be given where credit is due.

"Willard's Comedians occupy the boards tonight, presenting a farce comedy in three acts entitled 'He Could Not Marry Two,' this being the last bill of the present engagement."

MRS. PALMER'S HOLDING.

North Gainesville Lady Has Good Thing in Silver Stocks.

Mrs. W. H. Palmer of North Gainesville, according to report, has struck a good thing in some stock she owns in a silver mine in Colorado, which is bound to prove of great profit to her later.

It is further stated that a day or two ago Mrs. Palmer was offered a large bonus for her holdings, but prefers to retain her interest, as she believes the stock in the near future will produce largely augmented dividends.

A Fine Bull Pup.

C. F. Goodman, the hustling insurance and real estate man, is very fond of dogs, with the result that he recently ordered, while in Georgia, a handsome Boston bull pup, "Bullet," which has already arrived, and which has caused quite a sensation among dog fanciers here.

"Bullet" is thoroughbred in every sense of the word. He is a bright fellow, very gentle and affectionate, and has already become quite a favorite among those who take stock in the canine family. He is from the Wilcox Kennels, Eastman, Ga., and his new master is quite proud of him.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

PERIODS OF PAIN

While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the feminine organism.

Thousands of women, have found relief from all periodic suffering by taking Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, as it is the most thorough female regulator known to medical science.

It cures the condition which causes so much discomfort and robs that period of its terrors. Women who are troubled with painful or irregular functions should take immediate action to ward off the serious consequences and be restored to health and strength by taking

Lydia E. Pinkham's Vegetable Compound

Miss Adelaide Nichols of 224 West 22nd Street, New York City, writes:—Dear Mrs. Pinkham:—"If women who suffer would only rely upon Lydia E. Pinkham's Vegetable Compound their troubles would be quickly alleviated. I feel greatly indebted for the relief and health which has been brought to me by your inestimable remedy."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints such as Falling and Displacements, and Organic Diseases, Headache, General Debility, Indigestion, and invigorates the whole feminine system. For the derangements of the Kidneys of either sex *Lydia E. Pinkham's Vegetable Compound* is excellent.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

WASHINGTON LETTER.

Special Correspondence The Daily Sun.

Washington, D. C., Sept. 19.—At this time the principal turn on the political stage appears to be Burton and Johnson in their new sketch, "The Mayor of Cleveland," or "Who Will Be It." When Theo. E. Burton, our lovely and congenial pork dispenser of river and harbor appropriations, announced his candidacy for the next mayoralty of Cleveland, there was a fanfare of trumpets and an assertion that no less a personage than Roosevelt himself had asked him to sacrifice his Congressional status and try to be the mayor of the Cleveland town. Not a few people appeared to be from Missouri, and wanted to know why a man like Burton, who really has been an immense credit to his State and the country at large, should sacrifice the prestige he had gained as a member of the National Congress and run for mayor in a town like Cleveland. It finally settled down to the impression that Burton had his eye on, and had been measured for a senatorial toga, and that it was wisdom for him to go back a little for the prospects of the future. But then came Roosevelt's announcement that he had no intention whatever of interfering in the Cleveland mayoralty fight. Then everybody knew that something was up. Now it appears that the administration feels the necessity of bolstering up a lost cause, and someone had to be brought forward, possibly as a sacrifice, to snatch victory where defeat means much. To understand the situation in Cleveland, let us explain:

Tom L. Johnson has been mayor twice over, and expects to be it the third time. After each victory he has strengthened the machine so that it is next to Tammany Hall in New York, the strongest machine in the country—a Democratic buttress in a Republican camping ground. He is what you would call an aggressive man, not a radical. His machine is constructed under popular favor, and is the result of appeals to the public, largely upon the regulation of municipal corporations and establishment of a three-cent fare on railroad lines. Do not confound this with socialism, for such is not the case. The business interests of Cleveland, fearful that Johnson, if again elected, would put into effect municipal policies that would be detrimental to their interests, and judging that the margin of safety had been reached, enlisted the aid of the administration to beat Johnson, which of course necessitated the nominating of a man who was of a political calibre much too large for a mere mayor. No one appeared to have the prestige that Burton has, and besides, with his known senatorial aspirations, two birds might be killed with one stone—and that thorn in the administration flesh, Foraker, might be retired with honor. So Burton yielded and accepted. Now what will happen is this: If Burton wins, well and good—and fine. Taft will receive a mighty support, and Foraker will be retired when the proper time comes. But what if he loses? The administration, and the administration's "favorite son" are apt to go down in the general wreck and a staggering blow directed at the Republican ramparts in the Middle West. Johnson has an immensely strong hold on Cleveland, and many supporters outside of that big city. Should he win, while he would not displace Bryan from the pedestial of Democratic hopes and favor, he would easily be the second man, and Bryan and Johnson would not go at all bad together. He would make Bryan millions of votes where others would make thousands. It would, indeed, be strange to see Roosevelt, himself termed a radical, fighting a radical, an appealer to the public—and yet circumstances alter cases—Johnson, as stated before, is a Democrat in a Republican stronghold.

One by one the members of the administration family are returning to the fold. Secretary Oscar S. Straus is one of the officials who believe that they can accomplish more by getting into personal contact with the supervisory heads of his big department than by sitting quietly at his desk. He has been on an extended trip to the Pacific Coast and the Hawaiian Islands. His short stay at the islands was exceptionally pleasant, and he listened with good grace to the needs of the islanders. He says that some reforms are needed, and he intends to do what he can to see that they are accomplished. He discreetly refused to say anything about the Vancouver trouble with the Japs, but he is evidently doing a lot of thinking.

Metcalf will probably be the next one to return, and already rumor is busy as to his possible resignation. It is said that there was a miscarriage between the White House and Metcalf as to the sending of the battleship fleet to the Pacific and that Metcalf may feel it incumbent to tender his resignation.

All eyes are centered just at present on the remarkable run of the new giant Cunarder Lusitania on her maiden trip across the pond. The British boast that "Brittania rules the waves" received a severe shock when the Hamburg-American flyer Deutschland lowered the trans-Atlantic record, a few years ago, and gave to Germany the proud ownership of the "Queen of the Seas." Great Britain, however, not to be outdone, loaned the Cunard Line the money necessary to build the Lusitania, which was built for speed alone, and, ordinarily carries only about 700 tons of freight—not as much as many of our ordinary river steamers.

The Lusitania has four screws, rotated by turbine engines of 75,000 horsepower, steam being supplied by 192 furnaces, which eat up 7,000 tons of coal each trip. The boat is 790 feet long and 88 feet wide, and has five decks, communication with which is had by means of electrical elevators. They say you can play billiards in her saloon, so steady is she. Well, here's luck. The Americans haven't many steamships. What they have are slow, but we are supplying the world's markets, and when we get the foreigners educated to American products, we will go right after the American boats to haul them, and when we build an ocean steamer to smash all records, we will have a boat 850 feet long, 100 feet wide, six screws, 90,000 horsepower, and a speed of thirty-eight miles an hour. It will be just like Uncle Sam to do something like that—for we can't be beat.

SERMONETTES

BY J. MARVIN NICHOLS

Quit your whining—nobody's listening.

Naked and not ashamed—Me and Adam.

Control thought and you control destiny.

Time has no mortgage on the human soul.

Who are you? Answer that, and shrivel up.

The capacity to wait is no small mark of greatness.

Whatever interests a child is of interest to all mankind.

A man is never any more than what he really believes.

Don't tell other people what they should do—do it yourself.

Get busy, old man! That's the shibboleth in this good age.

Quality—not quantity—is what we want when we invest in children.

I despise the fellow that's all the time letting people feel of him.

Your words cannot be immortal unless you strike the dominant passion.

Set your shoulder joyously to your wheel of destiny and "keep a-comin'."

The one thing needful in our mad rush for things is rest—time to think.

To try hard and fail splendidly is infinitely better than never to have tried at all.

Generally the fellow who doesn't know anything about the real is following the fake.

There are vastly more men who miss opportunities than there are men who lack them.

Some folks are afraid they will spoil their children by making them too happy. What fools.

Beat the other fellow at his job, and one of these mornings you'll wake up famous—you'll be boss.

Success is not half so much a matter of talent as it is of concentration and dogged persistence.

Some men's education seems to be of no more use to them than a safety razor at a negro picnic.

Your right to do as you please is always limited by the freedom of others to do the very same thing.

In what respect is the dependent woman in the parlor superior to the dependent man? Can you say?

This old world is so infinitely wide—there's room for you. The tides of the sea come and go—why worry?

The late exhibitions of debauchery among the rich leads us to believe that poverty keeps many a man good.

After all the man who said that the man who owns enough of this world's goods to keep him from dirt, debt and hunger, has a thousand chances of avoiding evil against that of the man whom the demon of discouragement drags through depths from which it is almost impossible to escape without severe demoralization of body, mind and spirit.

It always interests me to watch those moguls on the Sante Fe pull their string of cars up the Rockies. And I always think of the world's poor devils down at the foot of the hill. It is no trick to bring the train down. The one necessity is to hold her back. But it takes a couple of tea-drivers to put the thing on the crest of the range. 'Don't forget that. The reason so many fellows are yet far down the valley is that they need added power. After all, and in a very definite sense, you're to blame when a fellow stays down. He'd pull the hill if he could. Either the grade is too heavy or his boiler is too weak—likely both. Can't you see that?

BABY TORTURED FOR 6 MONTHS

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hands and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and

ENTIRELY CURED IN 2 MONTHS BY CUTICURA

"When my baby Walter was three weeks old, eczema appeared on his face. We did not know what it was so went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor. He said he could cure him and we doctored there four months, the baby never getting any better. His hand and legs then had big sores on them and as for his sleeping, we could not think of it, the poor little fellow suffered so terribly. First I tied his hands to the crib to keep him from scratching, but when it got so bad I tied him in a shawl or he would scratch himself all bloody. When he was seven months old we tried a set of the Cuticura Remedies. The first application of Cuticura let him sleep and rest well, in one week the sores were gone but it stayed red and sometimes it would itch so we used Cuticura for two months, then he had a clear and white face. Now he is two years and seven months old and has never had eczema again. I hope this letter will help some who are suffering from skin disease. Every mother who has a baby suffering with skin disease should just try Cuticura, there is nothing better. Mrs. Louis Beck, R. F. D. 3, San Antonio, Tex., Apr. 15, '07."

A single set of Cuticura Remedies is often sufficient to cure torturing, disfiguring, itching, burning, and scaly humors, eczemas, rashes, and irritations, from infancy to age, when all other remedies fail.

Complete External and Internal Treatment for Every Humor consists of Cuticura Soap, (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

PLOT AGAINST POLICE.

Russian Girl Was Willing to Sacrifice Self For Revenge.

St. Petersburg, Sept. 19—The police today arrested a young girl, nicknamed "Wanda," who is accused of complicity in a plot to blow up the headquarters of the police situated on the Fontank canal, whose torture chambers have aroused bitter feelings on the part of the revolutionists.

The police claim that "Wanda" agreed to become a "walking bomb" and enter the headquarters building in the middle of the day, when it is generally full of police, wearing the uniform of a gendarmie of the office lined with cells of gun cotton and carrying powerful bombs.

"Wanda," the police add, hoped by blowing herself up to reduce the entire building to ruins and kill all the officials composing the staff of the political police.

In consequence of the murderous attempt of the revolutionists, these secret police have decided to give up their present quarters, removing to an isolated stone building on Fontanny place.

PROGRESS OF TWO STATES.

Much Capital is Flowing into Georgia and Alabama.

Atlanta, Ga., Sept. 19—The Georgia Alabama Industrial Index says this week:

"Backed by demonstrated productive power and by vast resources awaiting development, the flow of capital into Georgia and Alabama for investment is steady and unceasing. Coupled with local capital it is helping to advance the two states rapidly toward that point of great material wealth and commercial prestige commensurate with their possessions and opportunities.

"Recently projected investments announced during the past seven days amount in millions. A mining company with capital stock of $1,000,000 has been organized in the state of New York to operate in the Birmingham district. New York and Boston capital will build a $500,000 cotton mill at Manchester Ga. During the week twenty-one new corporations with total minimum capital of $2,745,000 have been formed in Georgia and Alabama.

Baggage Stolen.

New York, Sept. 19.—Thousands of dollars worth of baggage has been stolen in the last three months from the inbound line steamship pier No. 3 North river, the police say the object of the thieves being to change the owner's label on the baggage and substitute for them labels bearing the names of junk dealers. The Jersey City police have made three arrests which they declare bear on the case.

Found Dead in Road

Wetumpka, Ala., Sept. 19.—Jas. Frizzell, an aged farmer of Elmore county, was found dead on the road seven miles from Wetumpka Tuesday afternoon with his neck broken. He had been to Wetumpka to answer a charge of pointing a weapon, preferred by his son-in-law, William Frizzell. The charge against Frizzell was dismissed. A searching party went forward when his team reached his home without a driver.

Awards by Japanese Government.

Tokio, Sept. 19.—The Japanese government has rewarded W. D. Stevens and W. Dennison for their services during the Russo-Japanese war. It has been officially announced that Mr. Stevens had been awarded a grant of $10,000 and Mr. Dennison $10,000 and an annuity of $840.

"Olly" John Gets Busy.

New York, Sept. 19.—Things have been happening so fast in the last few months to the Standard Oil company and the companies in which it is interested, that John D. Rockefeller has decided that it is time for him to take a hand. It is learned that he has been down at his office twice in two weeks, although before that time he had not been there for eight years. He did a good deal of looking around on these occasions and it is understood that he is going to keep a close watch on the management of the company until several important matters are cleared.

Brooklyn Bridge Crush.

New York, Sept. 18.—"The Brooklyn crush," serious enough on ordinary occasions, has been rendered much more so by the mardi gras festivities at Coney Island. John C. Fallon of Brooklyn, an old man, and Michael Fitzgerald, a sergeant of the bridge squad of police, are suffering from its effects. In frantic rush for car seats Fallon was jammed between the cars and hurt so badly he will probably die. Fitzgerald was swept off his feet by the crowd and trampled on. He was considerably bruised.

Conference of Lay Members.

nKoxville, Tenn., Sept. 19—A conference of representative lay members of the Methodist Episcopal church, South, convened at the Church street Methodist church here Tuesday morning. Preliminary to the conference a banquet was tendered the bishops, ministers and lay delegates. It was attended by 200. The purpose of the conference is to increase a greater realization of the duty the lay members owe to the church, particularly in the matter of aiding in the work of missions.

Children Bitten by Mad Dog.

Savannah, Ga., Sept. 19—Lawrence and Ralph Broady, ages 8 and 7 respectively, left with their mother, Mrs. W. O. Broady, for Atlanta on Tuesday to undergo the Pasteur treatment. The boys were bitten by a dog Saturday. The animal's head was sent to Atlanta for the judgment of the experts. They telegraphed that the animal undoubtedly had rabies, so Mrs. Broady immediately arranged to place her sons under their treatment.

HABITS OF SPIDERS.

"Do These Insects Sleep?" Is Not an Easy Question to Answer.

The question, "Do spiders sleep at night?" is not easy to answer. I have made a careful observation of the sleep of ants, and that could readily be done by watching colonies in their artificial formicaries. It is almost impossible to deal with spiders in the same way. I would answer, however, in general terms that spiders sleep, as all animals do, and doubtless parts of the night are spent in slumber. Many species, however, prey on the night flying insects, and so must be awake in order to catch their prey. If you will watch the porch or outbuildings of your home on a summer evening you will be likely to see an orb weaving spider drop slowly down on a single thread in the gathering dusk of the evening. From this beginning a round web will soon be spun, and either hanging at the center thereof or in a little nest above and at one side is the architect, with forefeet clasping what we call the "trap line" and waiting for some night flying insect to strike the snare. In this position spiders will sometimes wait for hours, and it is just possible that they may then take a little nap. They might easily do that and yet not lose their game, for the agitation of the web would rouse the sleeper, and then it would run down the trap line and secure its prey. Some species of spiders do the chief part of their hunting at night, and there are some who chiefly hunt during the day; but, as a rule, these industrious animals work both day and night.—St. Nicholas.

Suffered For His Chickens.

In London as far back as 1791 a city ordinance was passed to suppress the early morning cries of the street hucksters. This law was so severe that a person arrested twice for the same offense could be imprisoned for ten years. There is one record of a man lingering in prison for ten years. When his time was up he was asked what his crime was.

"For selling chickens that squawked," was the reply.

In the confusion of the trial the fact was not brought out that the chickens and not the man were responsible for the din that aroused the wrath of the disturbed citizens.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.

Large space in this paper is one of the best investments a merchant can make.
